About Motherlode Harvest

Motherlode Harvest is a branch of Farms of Amador, a nonprofit organization whose mission is to promote local agriculture through marketing and education. Motherlode Harvest is a multi-farm CSA (community-supported agriculture), which represents a new advance in CSA programs, offering greater variety to our customers. We are in the process of becoming a full-fledged farmers' and consumers' cooperative, and the subscription boxes are the first step toward this goal.

Motherlode Harvest strives to support sustainable growing practices. The purpose of the subscription box program, and ultimately of the cooperative, is to provide foothill residents with greater access to local agricultural products year-round and to support local agriculturalists, the stewards of our open space.

Motherlode Harvest will purvey food which is healthier and better for the environment while keeping money circulating in the local economy.

**Thank you
for your participation.
Your health & the local economy
will benefit as a result!**
