

WATERTON HISTORICAL BUILDINGS

“MV International” At the Waterton Marina

#3 on History Walking Tour

Built on Waterton Lake in 1927, the 165-passenger historic M.V. International shuttles passengers across the liquid border shimmering between Goat Haunt, Montana, and Emerald Bay in Waterton Park. Once upon a time, during the days of Alberta’s so-called Blue Laws, the vessel was used of a boat of festivities, so that people could step aboard to enjoy music, dance and drink in Montana, outside of Alberta’s jurisdiction. The International is the oldest operating passenger vessel in Canada. She is a wooden ship of cedar and fir planking on oak frames and is continuously being maintained using traditional ship building techniques. (Excerpt from 2018 Waterton Visitors Guide).
