

BAR W WINTER ACTIVITIES

As a blanket of snow covers the valley - the valley is alive with a crisp clear sense of beauty. The place to be during the winter, is at the Bar W Guest Ranch. Time will run a little slower – things will seem a little easier – and everyday will feel like Saturday.

You will find that this ranch and the valley community have it all. Some have called it the next Aspen or Jackson Hole and while maybe that is true – right now it is a great deal and a great place to be. **Ski Magazine ranked it 8th nationwide for grooming, 13th for service, 15th in character and 17th in value in the country.**

Feel at home at the ranch and take advantage of **horseback riding, sleigh ride dinners, square dances, snow shoeing, ice skating, ice fishing** and at the end of the day take a nice soak in the **hot tub, play pool, listen to music, read a book** or just sit back relax and let Montana surround you.

For the skiers it doesn't get any better than **Whitefish Mountain Resort** (formerly known as Big Mountain) located just 12 miles away. With 300 inches of snow a year you'll find this ski area has it all - terrain for all levels. From beginners to over the top experts, there is plenty of terrain on the 3,200 plus acres and if you're a night skier, you can take advantage of the 5 kilometers of lit trails.

You can **ski back country** at Whitefish Mountain Resort or with Great Northern Powder Guide. Deep untracked powder, no lift lines, and as much skiing as your legs can handle. If you are a **cross-country skier** – there is over 200 miles of groomed trails.

There are 3 trail systems within minutes of the ranch (two literally right down the street) and plus there is cross-country skiing at Glacier National Park just 23 miles away. An easy drive, or take Amtrak right out of Whitefish – a beautiful ride. Ski all day and take a relaxing ride back. We'll drop you and pick you up at the end of the day.

The Bar W is surrounded by incredible **snowmobiling** and has partnered up with three snowmobile outfitters who are standing ready to show you their trail systems and territories. Snowmobile up the back of Whitefish Mountain and have lunch at the summit.

Dogsledding is a must. Jeff Ulsamer and his 45 sled dogs are more than eager to please all comers. You'll have a lot of fun and talk about it for years.

After a great day in the outdoors, come home to some of the **best down home cooking** this side of the Mississippi – Montana style. Meals are served with love and care and no one leaves hungry. If that great book your reading is finished and you want to get out – the town of Whitefish can accommodate just about everybody's taste.

See a **symphony, a play**, listen to some **live music**, **visit the Blue Moon and learn to two-step**, or sample some of the best restaurants you'll find anywhere.

With all that the Bar W and Whitefish have to offer, you are going to want to return, year after year.
