

## OUR BUSINESS

Dropstone Outfitting is continuing the legacy of the oldest and finest wilderness backpacking guide service in Montana. We are the only outfitter focused on foot travel permitted by the Forest Service to operate in the 1.5 million acre Bob Marshall Wilderness.

Each year we offer a variety of trips, all of which are designed to offer a truly unique wilderness experience for any skill level. The expanse of the Bob – its broad valleys, towering peaks, rushing streams and lush forests – is our wild treasure to explore. The Bob Marshall is a vast wilderness where guests can truly enjoy solitude and splendor abounds.

Yve Bardwell and Maggie Carr both grew up learning and exploring this area. Work and study has given them each an intimate knowledge of this landscape which they are happy to share with you. Each of the trips are a reflection of this experience and laid out to showcase what is best about the Bob. We hope you'll join us.
