Please note that this is only approximate times as each Cattle Drive will depend on how the cattle are moving. Also the July & Aug Cattle Drives vary a bit in the fact that sometimes we will be riding out from the ranch and at other times we will be trailering the horses out to where we start or stop.

We usually try to have everything wrapped up a bit earlier on the Sunday night as some guests may have to leave to get back to work for the next day. Others may choose to come before the Cattle Drive and some may choose to stay longer – the choice is yours!
