| TRIP IDEA: | LOBSTER | Kennebunkport Maine's Beaches Region | Maine |
|------------|---------|--|-------|

“Those who dwell among the beauties and mysteries of the earth are never alone or weary of life.”

- *From Sense of Wonder, Rachel Carson*

SUMMER THROUGH EARLY FALL

Book a coastal lobster boat tour aboard **Kylie's Chance** or the classic **Rugosa**. You'll experience first-hand how Maine's iconic lobster are trapped and hauled.

Savor a sweet lobster roll at **The Clam Shack**, where they have been serving up the freshest seafood since 1968. Be sure to order a side of fried clams! You can even order a The Maine Lobster Roll Kit, to send home. All dishes are take-away or you can eat al fresco on a wooden lobster crate.

Spend the afternoon at **Goose Rocks Beach**. A barrier reef offshore known as the Goose Rocks, visible at low tide, helps protect the soft white sands of this three-mile beach.

Set up camp at **Sandy Pines Camping** or book one of their new glamp tents for an elevated camping experience. You can even order a lobster dinner at their on site snack bar!

Crack open a fresh caught Maine lobster at **Mabel's Lobster Claw Restaurant**. This classic spot is located on Ocean Avenue, right across the street from the pier where lobsters are hauled in by local lobstermen. Mabel's was a favorite of the late President George H.W. Bush and he really liked the homemade pies too!

Local Tips:

Take a stroll along Ocean Ave. to Walker's Point, the longtime summer home of the late George and Barbara Bush. There's a scenic overlook where you can catch a glimpse of the estate, smell the salt air and hear the waves crashing.

Visit the **Rachel Carson National Wildlife Refuge**, a short drive away along Port Road. Carson was a world-renowned marine biologist, author and environmentalist.

Find a selection of plants that run wide and deep at **Snug Harbor Farm**. Mainers travel from afar for thoughtfully sourced home and garden goods.
