Come and explore the exquisite beauty of the tranquil Damariscotta River in Midcoast Maine on the 50-foot classically lined *Teciani*.* Bring your camera to capture seals basking on the rocks of forest reserves, eagles and ospreys soaring above coves, and the ancient horseshoe crab in its northernmost breeding grounds.

We'll explore hidden bays where you can easily imagine pirates lurking and American Indians hunting in days gone by. Complementing the river's natural bounty are stately mansions and saltwater farms with fields sweeping down to the water's edge, an old-time boatyard still specializing in wooden boats and the working waterfront of oyster farmers, clam diggers and lobstermen.

You will have the unique opportunity to visit an oyster farm on our partially narrated Aquaculture Tours and to learn about the rich history of the river and region. In the evenings enjoy our Sunset Tours and Party Cruises with live music and full bar.

*Pronounced "Tessy-Annie". Teciani is named after the mother of our Brazilian godson.

Teciani is handicap friendly with spacious decks and seatings for 49 passengers.
