

Whitetail/Bear/Coyote Combo 2021 / Maine, United States

Package price

\$850 for 7 days, Per Hunter

About this hunt

This is a semi-guided economy hunt for a Maine whitetail buck with the option for black bear and coyote as additional opportunities. The black bear season overlaps with firearm season on deer in Maine and IFW allows hunters to take a late-season, fair chase bear during the deer hunt. While not the primary species on this hunt, every camp usually has at least one hunter come in contact with a black bear while deer hunting here. Big northeastern coyotes are also prevalent in the area and provide added hunting value. We'll help get you set up on good sign and you'll hunt on your own. We'll also help with field care and tagging if you are successful. We can provide you a stand or blind, or you can bring your own. This hunt is a popular option for experienced deer hunters looking to save a few dollars. This hunt is a great way to get introduced to hunting Maine for the first time on a budget.

Success rate

Ultimately, success depends largely on the hunter. Discipline on stand, commitment to the hunt and heeding advice from your guide will ensure the highest possibility of a successful outcome for your hunt. We take great strides to ensure you have a quality hunt and the best opportunity. From preseason scouting to regular trail camera monitoring, we make every effort to ensure you have a hunt of a lifetime. No ethical outfitter or guide service will guarantee success, but we can and do guarantee you will be hunting an active area with proven sign. Make no mistake, hunting Maine whitetail is a tough - but the challenge (and reward) of taking a 200+ pound, thick beamed buck from the ridges and bogs of northeast Maine keeps hunters coming back year after year, regardless of the outcome of their hunt. Join them for an experience you'll never forget.

Reviews

"John, Super father/son trip to your operation. Anyone who enjoys the outdoors should experience the "BIG WOODS" of your area. FANTASTIC! Every expectation was met and exceeded for this trip. It would have been great for that big doe that Stephen saw had antlers, even though he thought it was a cow moose at first. Big is HUGE in the big woods! The two small black bear will be a great trophy for a lucky hunter next year. Accommodations and night companionship at the lodge was great. Lasting relationship with folks that enjoy the great outdoors is always an added benefit. A trip that Stephen and I will remember forever, thanks! As I told you, I don't think you have seen the last of me!" – *Jim R.*
