

Interactive exhibits

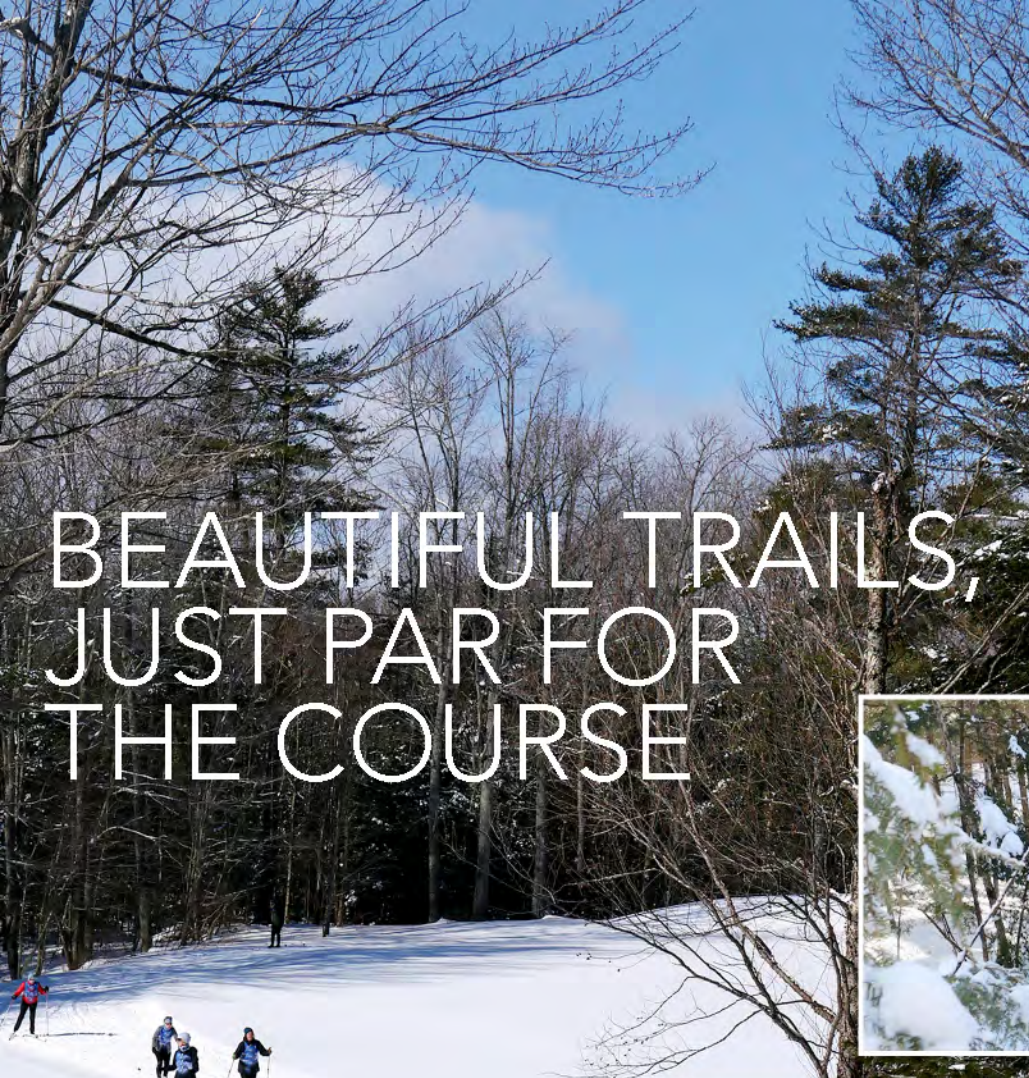

Maine's rich geological history has planted gems throughout the state. **The Maine Mineral & Gem Museum** not only exhibits an amazing collection of gems but also the rich stories of the miners who passionately extracted these treasures from the landscape. No less amazing is the out-of-this-world exhibit of meteorites from around the galaxy. This is a great stop for the whole family.

Extraterrestrial visitors

"If the State of Maine turns out to be a prime source of mineral wealth, its people can thank the persistence and hard-won knowledge of Stanley Perham."

David O. Woodbury, Readers Digest 1957

BEAUTIFUL TRAILS, JUST PAR FOR THE COURSE

The Bethel Village Trails meander through this quintessential New England town. Beginning at the historic Bethel Inn, you can ski, bike or snowshoe for miles through the woods and over the golf course. After spending time in the exhilarating fresh air, stop into the tavern to relax and warm up.

Maine's LAKES and MOUNTAINS

When you plan on spending the day in the fresh, mountain air there is always an excuse to consume a few extra calories. **DiCocoa's Bakery & Café** is made for that mission with fresh, hand-shaped bagels, flaky pastries and more. While the cozy setting may entice you to sit a little longer, you can always pick up some local products to enjoy later.

SWEET START TO THE DAY
